Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,408,003 to Rezaiifar et al. Rezaiifar et al disclose in Figure 2 an apparatus for transmitting and receiving RLP data in a mobile communications system. The method comprises a transmitter (Element 50) for respectively assigning frame sequence numbers (SEQ, Element 72) to a plurality of transmitted RLP frames. The data transmitted from transmitter 50 is formatted in accordance with frames 70 that include an eight-bit sequence field (SEQ, Element 72). Refer to Column 6, lines 57-60 and Column 6, line 66 to Column 7, line 7. The method also comprises a receiver (Element 52) for requesting the transmitter (Element 50) to retransmit a failing RLP frame detected by the frame sequence number (SEQ, Element 72) using an identifier (L_SEQ, in Element 83) assigned to the failing RLP frame instead of the frame sequence number (SEQ, Element 72). Using SEQ 72, if the receiver 52 determines that a frame has been received out of order, it generates NAK frame 83 with an identifier (L_SEQ) representing the frame that is out of order. Refer to Column 7, lines 17-34. The eight-

bit frame sequence number (SEQ, Element 72) can be represented by a twelve-bit sequence number (L_SEQ, in Element 83). Refer to Column 3, lines 52-57.

Allowable Subject Matter

3. Claims 1-7 are allowed.
4. Claims 9-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine Ng whose telephone number is (703) 305-8395. The examiner can normally be reached on M-F; 8:00 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nguyen Chau can be reached on (703) 308-5340. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
